Application for Graduate Assistantship**

On a separate sheet of paper, please describe the skills you possess that will enable you to be an effective graduate assistant in the Department of Kinesiology. In your description, focus on the following items:

- 1. Describe any laboratory skills or courses (taken and/or taught) pertaining to laboratory methods**
- 2. Describe laboratory equipment or techniques that you have used and are competent**
- 3. describe any adult fitness and/or cardiac rehabilitation experiences you have**
- 4. list any computer skills/expertise that you have that might be appropriate for exercise science**
- 5. describe any exercise science/kinesiology course you have assisted**

Please e-mail this graduate assistantship application by February 15 to:
