

So many ways to Make a Life-Changing Difference!

We tailor your volunteer experiences to fit your availability and interests. Whether you have an hour or two a week to dedicate to Future In Sight clients who live with vision loss or an hour a month, there will always be a place here for you to make a difference. Show up, bring your good heart, and we'll provide the training and experiences for you to connect with others.

Transportation

Drivers assist with transporting individuals to and from appointments or stores; program drivers provide rides for several blind or visually impaired persons to and from Future In Sight Programs.

In Home / Community Visitor

Volunteer visitors are matched with a specific client and provide companionship and assistance with reading, completing paperwork, shopping, or other tasks as needed.

Office Support

Clerical helpers assist in various ways in our Concord office with mailing, data entry, phone calls, covering the front desk, and other administrative duties.

Special Events and Community Education

Volunteers provide help with our special events, such as fundraisers and programs for clients.

Ambassadors

Join one of our advisory committees and help spread the word about Future In Sight and our Services.
