

Permission to use Documentation of Children on Social Media

As a campus lab school and Reggio-inspired program, we strive to set a standard of education for the field of early childhood education and showcase our school as a leader in Reggio philosophy and innovative approaches in developing the whole child. Having a social media presence allows us this opportunity and helps us build and inform our community. We utilize social media as a tool to connect with a diverse audience, including our families, students, faculty, UNH departments, early childhood educators, prospective families, and alumni of our program. Our goal is to inform, engage, and inspire others about the importance of the field of early childhood education.

Upon enrolling in the program, all families sign an Informed Consent for Photographs and Video Footage. This additional permission form is specific to documentation posted to the CSDC's social media platforms.

Granting permission for a child's image to be posted on the CSDC social media platforms is done so with the understanding that our social media pages are public, and images posted to these spaces could potentially be shared by others following the page. Children's names and date of birth will not be posted through text within a caption.

Acknowledgment

I am the parent/legal guardian of the minor child named below.
