

## Sunscreen and Insect Repellent Application

In keeping with the New Hampshire Health and Human Services Department and NAEYC Accreditation criteria, we ask you to complete the following information about your preferences regarding the application of topical applications while your child is in our care. This form will be kept in your child's file for our reference.

Child's Name \_\_\_\_\_

### Sunscreen

CSDC uses *Coral Isles Broad Spectrum SPF 30 Sunscreen Lotion* to meet current best practices and recommendations.

Please check one of the preferences listed below regarding sunscreen:

- ☐ Staff may use the program's sunscreen indicated above according to the directions on the product label.
- ☐ I will provide sunscreen for use on my child (name/brand of sunscreen must be documented on topical substances form in the classroom) \*Note: Aerosols may not be used. No combination insect/sunscreen products can be used at CSDC based upon our health consultant's feedback.
- ☐ Please **do not apply sunscreen** on my child

### Insect Repellent

The CSDC uses insect repellent under the following conditions:

- When mosquitoes and ticks are present
- During field trips that may expose a child to ticks or mosquitoes
- Used according to directions on the label
- Applied only to exposed skin and clothes
- Not applied to infants under two months
- Not applied near eyes or mouth or on hands

- ☐ I give permission for the staff to apply *OFF! Family Care Insect Repellent (7% concentration of DEET)* and *OFF! Deep Woods Insect Repellent (25% concentration of DEET)*.

We primarily use *OFF! Family Care Insect Repellent (7% concentration of DEET)*, when we are in the woods, or if there an increase in the number of mosquitos present in the area we will apply *OFF! Deep Woods Insect Repellent (25% concentration of DEET)*.

- ☐ I will provide insect repellent for use on my child (name/brand of insect repellent must be documented on topical substances form in the classroom)  
\*Note: Aerosols may not be used. No combination insect/sunscreen products can be used at CSDC based upon our health consultant's feedback. *When using an alternative to DEET, include documentation of what is being used as well as documentation that the alternative has been approved and is applicable for the age of child(ren) it is being used.*

- ☐ Please **do not apply insect repellent** to my child
