Percentage of Federal and State Budget on Medicaid\(^8\): State – 40.1%, Federal - 59.9% (CY2015)

Current Eligibility Guidelines
Provides Medicaid coverage to children up to 318% FPL regardless of age
Provides Medicaid coverage for pregnant women up to 196% FPL
Provides Medicaid coverage to adults who are parents/care takers up to 68% FPL
Provides Medicaid coverage through premium assistance to adults up to 133% FPL

Program Highlights
New Hampshire Medicaid has historically offered a fee-for-service program for its Medicaid members. In 2010, it moved its CHIP population from a managed care delivery model into the fee-for-service program and covers infants and children up to 133% FPL and low income children up to 318% FPL. Managed care for medical services began in December 2013. Participation is mandatory via state law and an 1115 waiver, and the two current managed care providers are New Hampshire Healthy Families (Centene Corporation) and Wellense Health Plan (Boston Medical Center/HealthNet). Expansion coverage through a premium assistance model where participants purchase coverage from the marketplace insurers began in August 2014 pursuant to state law and an 1115 waiver. New Hampshire Medicaid continues to provide fee-for-service coverage for LTSS services and certain populations exempt from managed care.

New Hampshire participated in the State Innovation Model grant program for rounds one and two. In December 2015, New Hampshire was awarded a five-year $150 Million 1115 transformation waiver to develop integrated delivery networks throughout the State and improve mental health and substance abuse treatment networks.
